Winter Wheat

1992 | 386 pages | PAPER | Literature

A classic novel of family life and love on a 1940s-era Montana farm by Mildred Walker. The University of Nebraska press has returned Walker's many much-loved books to print, most originally published in the 1950s and 1960s. *Winter Wheat*, Walker's best known tale, is memorably set against the backdrop of the landscape, vagaries of weather and routines of life on a farm in central Montana. It's the story of 18-year-old Ellen Webb, her family, friends, and loves.
